LAUNDRY ANCILLARY · OPTICAL BRIGHTENER

kreussler TEXTILE CARE

OTTALIN

Blanc

Brightener for cotton and viscose. Reduces yellowing and increases the whiteness of textiles.

MAIN WASH	PH (20 °C)	EU ECOLABEL	SHELF LIFE
0.5–2 ml/kg	**7–8**	**OptiCare 50° GREEN**	**24 months**

CHARACTERISTICS

- Reduces yellowing.
- Increases the whiteness of textiles.
- For cotton and viscose.

TECHNICAL DATA

Consistency	**Yellow fluorescent liquid**
pH value	**7–8 (20 °C)**
Density	**1.0 g/ml**

APPLICATION AND DOSAGE

CYCLE	DOSAGE
Main wash	**0.5–2 ml per kg dry linen**

Dosage is a recommendation only; adapt the quantity to the particular washing process and the desired result.

IMPORTANT

Adding OTTALIN BLANC in the rinsing zone significantly reduces the absorption capacity of the textiles.

Water hardness can be obtained from the local water supplier.

EU ECOLABEL

OTTALIN BLANC is certified with the EU Ecolabel as part of the OptiCare 50° GREEN multi-component system. See the OptiCare 50° GREEN technical bulletin for the application notes needed to meet the environmental criteria.

USE AND STORAGE

Minimum shelf life of 24 months in closed containers. Close tightly after dispensing and store frost-free. After freezing, the product thaws in a single phase, which can cause concentration differences; homogenise it once it reaches room temperature.
