LAUNDRY ANCILLARY · SOAP WASH BOOSTER

kreussler TEXTILE CARE

OTTALIN

Savon

Liquid combination of native soaps to support the washing power of washer-extractors and continuous batch washers.

HEAVY SOIL	IRONER SLIP	PH VALUE	SHELF LIFE
1–4 ml/kg	**1–2 ml/kg**	**11**	**24 months**

CHARACTERISTICS

- Unscented, so it can be combined with all Kreussler detergents.
- Can be used in all washing procedures.
- Very low viscosity, even when cool: excellent for automatic dosing.
- Supports cleaning in both pre-wash and main wash.
- Increases the liquor's capacity to hold and carry dirt, especially pigment soil.
- Reduces greying.
- Re-oiling properties improve sliding on the flatwork ironer.
- Prevents static charge.
- Mild foaming helps remove fluff and hair.

TECHNICAL DATA

Form	**Liquid**
Colour	**Yellow, transparent**
Density	**1.01 g/cm³**
pH value	**11**
Viscosity	**6 mPa·s (20 °C); 9 mPa·s (10 °C)**

APPLICATION AND DOSAGE

USE	DOSAGE	ADD TO
Heavily soiled laundry	**1–4 ml/kg**	Pre-wash or main wash
Better flatwork ironer efficiency	**1–2 ml/kg**	Main wash

IMPORTANT

Do not use at the same time as OTTALIN SOFT or LANADOL ABAC.

Use only in softened water. Water-hardness constituents must be sufficiently complexed by the detergent; in hard water, poorly soluble lime soap will form.

USE AND STORAGE

Minimum shelf life of 24 months in closed containers. Store protected from unauthorised access and reseal tightly after each use. Not frost-sensitive, but warm to 15 °C before use for dosing accuracy.
