Product Range

Wet cleaning and special detergents

The original wet cleaning

Lanadol AKTIV
Special cleaning and fiber protection agent for high sensitive textiles for wet cleaning using the Lanadol SENSITIVE process.

Lanadol X-PRESS
Heavy-duty special cleaning agent for less sensitive textiles for wet cleaning using the Lanadol DRY process.

Lanadol AVANT
Colour and fiber-protecting special fat dissolver for extremely dirty textiles. For direct application prior to wet cleaning processes using the Lanadol process.

Lanadol AVANT x-treme
Highly effective brushing agent with extra strong fat dissolving power for extremely soiled, less sensitive textiles. Can also be used as a wash-power booster.

Lanadol APRET
Fiber-protecting agent with retexturing effect and antistatic properties for application with finishing baths in wet cleaning.

Lanadol LICKER
Leather oiling agent for treatment of leather and suedes in wet cleaning and for reoiling cleaned leather in a spraying process.

Lanadol ABAC
Disinfectant for outerwear, nursing home ware, protective clothing, and gas masks. For disinfection of the rinsing zone in continuous batch washers. Listed according to: DIN EN 1276 (bactericide), DIN EN 1650 (levurocide), DIN EN 14476:2016 (virucide against norovirus). Listed as a biocide only in Austria (notified), Belgium (BE-REG-00815), France (44148), Germany (N-62615), Slovakia (bio/1506/D/08/1/CCHLP), Switzerland (CHZN 4704).

Special detergents

DERVAL RENT
Concentrated liquid colour-wash detergent, without optical brightener or bleach, for cotton and mixed-fibre textiles.

COLOFIX
Fixing and levelling agent for direct dyes on textiles. As well as colour stabilisation and protection of re-deposition in colour wash processes.

FOMEX SI
Silicone emulsion for foam suppression with aqueous surfactant solutions.

Liquid laundry system ESDOGEN

ESDOGEN DETERGENT
Universal laundry detergent for application in the ESDOGEN system. Liquid concentrated detergent with optical brightener and without bleach for textiles made of cotton, synthetics, and textile blends.

ESDOGEN BOOSTER
Enzyme-containing wash power enhancer for textiles heavily soiled with fat and/or albumin.

ESDOGEN ALKAPLEX
Alkaline complexing agent that enhances the washing effect for extremely soiled textiles made of cotton and synthetics.

ESDOGEN BLEACH
Activated concentrate for oxygen bleaching of textiles made of cotton and synthetics.

ESDOGEN DESINFECT
Activated concentrate for oxygen bleaching and laundry disinfection for textiles made of cotton and synthetics. Listed according to: RKI (type A/B); listed as biocide only in Austria (pre-registered), France (33303), Germany (N-23544), Switzerland (CHZN 3200).

OPTIMA low-temperature system

ESDOGEN DETERGENT Optima
Liquid detergent concentrate with optical brightener for use in the OPTIMA low-temperature washing system.

ESDOGEN WHITE Optima
Highly effective, oxygen-based bleach additive for use in the OPTIMA low-temperature washing system.

Solutions with ecolabel

OptiCare 50° GREEN * — Performance fuelled by nature

EU Ecolabel: DE/039/026

DERVAL Power GREEN
Basic washing agent with alkali builder for washing heavily soiled textiles.

OTTALIN Duacid
Neutralising agent for washing extractors and tunnel washer.

OTTALIN BLANC
Brightener for cotton and viscose textiles.

DERVAL Energy GREEN
Highly concentrated wash power booster for removing oil and grease stains from textiles at low temperatures.

OTTALIN OxyActive
Activated super concentrate for oxygen bleaching of textiles.

* Multi-component system; has been awarded the EU Ecolabel ("eco flower") DE/039/026.

TREBON PLUS ECO
Ecological heavy-duty detergent for application in hard and soft water at 30 °C (86 °F).
The product has been awarded the EU Ecolabel ("eco flower") DE/006/041.

EU Ecolabel: DE/006/041

RKI – Robert Koch Institute, Germany
DIN EN – European Standards
VAH – Association for Applied Hygiene, Germany
Type A = bactericide + fungicide
Type B = virucide

Professional detergents for superior demands

Wash-power booster

DERVAL BRIGHT
Liquid highly concentrated wash-power booster with optical brightener. Particularly efficient for natural oils and fat even at temperatures of 60 °C. For white textiles made of cotton, polyester and blended fabrics. Particularly suited for white work clothing within the food sector.

DERVAL PROTECT
Wash power booster for more efficient stain removal on synthetic and blended technical fabrics. For effective care at low alkalinity and temperatures between 40 – 60 °C (104 – 140 °F).

DERVAL ENERGY
Highly concentrated wash-power booster for removing oil and grease stains from textiles. Effective at washing temperatures of 40 – 60 °C (104 – 140 °F). Particularly suited for blue work wear, protection wear and dust control mats.

Single-shot detergents

DERVAL POWER
Liquid highly concentrated one-shot detergent with optical brightener. Excellent cleaning power for cotton and blended fabrics.

DERVAL POWER C
Liquid highly concentrated one-shot detergent without optical brightener. Excellent cleaning power for cotton and blended fabrics.
Listed according to: RKI (type A/B) in combination with OTTALIN PA-CONC.

DERVAL SOLO
Liquid one-shot detergent concentrate for white and coloured cottons and mixed fibers.
Listed according to: RKI (type A/B), DIN EN 1276 (bactericidal), DIN EN 14476 (virucidal) in combination with OTTALIN PERACET.

TREBON SI
One-shot detergent for washing of heavily soiled textiles made of cotton and blends. Listed according to: RKI (type A/B), DIN EN 14476 (virucidal) in combination with OTTALIN PA-CONC resp. OTTALIN PERACET.

TREBON BASIS
Phosphate-free basic detergent for washing textiles made of cotton and blends. Listed according to: RKI (type A) in combination with OTTALIN PERACET.

Main-wash detergents

TREBON PLUS
Superconcentrated heavy-duty detergent for white textiles for application in hard and soft water at 30 – 60 – 90 °C (86 – 140 – 194 °F). Free of phosphates, perborates and NTA. Listed according to: RKI (type A/B), DIN EN 14476:2016 (virucide), DIN EN 1276 (bactericide), DIN EN 16616 (fungicide/bactericide). Listed as biocide only in Austria (pre-registered/ notified), France (21545) Germany (N-10023), Luxembourg (95/16/L), Norway (618940), Russia (BY.70.06.01.015. E.003157.07.18), Slovakia (bio/1506/D/08/2/CCHLP), Switzerland (CHZN2036).

TREBON ULTRA white
Concentrated heavy-duty detergent for white textiles. For application in hard and soft water at 30 – 90 °C (86 – 194 °F). Phosphate-free and NTA-free. Listed according to: RKI (type A/B), DIN EN 14476:2016 (virucide), DIN EN 1276 (bactericide), DIN EN 16616 (fungicide/bactericide). Listed as a biocide only in Austria (pre-registered), France (36553), Germany (N-55163), Norway (618941), Russia (BY.70.06.01.01 5.E.000045.01.18), Slovakia (bio/1717/D/13/CCHLP), Switzerland (CHZN3830).

Detergents for coloured fabrics

TREBON COLOR
Highly concentrated detergent for coloured textiles made of cotton and blended fabrics.

DERVAL COLOR
Liquid compact colour detergent with colour protection for textiles made of cotton and polycotton blends.

Laundry ancillaries Agents for bleaching/ disinfection

OTTALIN OptiBleach
Bleach activator for fast, fibre-deep oxygen bleaching at low temperatures. Environmentally friendly chlorine alternative for minimal rewashing.

OTTALIN PERACET
Activated concentrate for oxygen bleach and for laundry disinfection. Listed according to: RKI (type A/B), VAH, DIN EN 1276 (bactericidal), DIN EN 14476 (virucidal). Listed as biocide only in Austria (pre-registered), France (20594), Germany (N-10021), Poland (3953/10), Russia (No. 77.99.26.2.Y.4094.6.10), Slovakia (Bio/1506/D/08/3/CCHLP), Switzerland (CHZN1882).

OTTALIN PA-CONC
Super concentrate for the bleaching and disinfection of textiles. Listed according to: RKI (type A/B), DIN EN 1276 (bactericidal). Listed as biocide only in Austria (pre-registered), France (20595), Germany (N-29343), Poland (5026/12), Slovakia (Bio/1506/D/08/4/CCHLP), Switzerland (CHZN1801).

OTTALIN OXY
Highly active bleaching soda based on perhydrated compounds. For oxygen bleaching in laundry processes, with improved washing results.

OTTALIN CL
Phosphate-free chlorine bleach powder for intensive bleaching.

OTTALIN BLANC
Brightener for cotton and viscose.

Miscellaneous

OTTALIN ENZYM
Enzyme-complex concentrate for albumen breakdown and fat removal during pre-wash.

OTTALIN PLEX
Concentrated complexing agent for removing lime, rust, and gypsum deposits from textiles and machines as well as for softening of extremely hard water.

OTTALIN ODX
Odour absorber to eliminate unpleasant smells from laundry.

OTTALIN CITRO/OTTALIN Duacid
Neutralizing agent for washing extractors and tunnel washers.

OTTALIN SAVON
Liquid combination of native soaps to support the washing power of washers extractors and tunnel washers.

Waterproofing/finishing

HYDROB EASYDRY
Water and oil proofing agents for waterproofing and stain-protective finishing of textiles. Effective at low drying temperatures.

HYDROB FC
Water and oil proofing agent for water-proofing and stain-protective finishing of textiles. Application in water.

HYDROB PN
Highly concentrated waterproofing agent for textiles, awning and tents. Application in water.

OTTALIN SOFT
Fabric softener with antistatic properties and a fresh scent.

OTTALIN SOFT intense
Fabric softener concentrate with long-lasting and thermostable fresh fragrance.

OTTALIN FINISH
Finishing agent with handle enhancing and antistatic properties for cotton and polycotton blends.

Use biocides safely. Always read the label and product information before use.

The top assortment in textile care in all solvents

SYSTEMK4

CLIPK4
Dry cleaning detergent for textile cleaning machines in SYSTEMK4.

PRENETTK4
Brushing and pre-spotting agent for dry cleaning in SYSTEMK4.

SOLVONK4
Halogen-free solvent for dry cleaning in SYSTEMK4.

VINOYK4
Waterproofing and anti-spotting agent for use in dry cleaning machines in SYSTEMK4.

Dry cleaning detergents

CLIP PRESORB
Dry cleaning booster for the first bath with good soil removing- and excellent bad smell absorbing properties. For use in SOLVONK4, Perc, and hydrocarbon.

CLIP GREEN CONC
Dry cleaning detergent concentrate with sensational cleaning power. Free of VOC and formulation aids. For use in Perc and hydrocarbon.

CLIP COMFORT
Concentrated dry cleaning detergent with highly active odour absorber, neutral scent, excellent antistatic characteristics and comfort retexturing properties in textile cleaning. For use in Perc and hydrocarbon.

CLIP CONC ASEPT
Highly concentrated dry cleaning product for hygienic cleaning, retexturing, and antistatic finishing in textile cleaning. For use in Perc and hydrocarbon.

CLIP COMBI
Concentrated dry cleaning detergent with excellent antistatic properties and fragrance for textile cleaning. For use in Perc and hydrocarbon, suited for charged-system machines. VOC-free.

Pre-spotting/spotting

PRENETT MAX
Highly effective and mild pre-spotting agent for textile cleaning, for spraying and brushing on. For use in Perc.

PRENETT PUR
Mild and colour-neutral general purpose pre-spotting agent for textile cleaning. For use in Perc, Cyclosiloxane D5 (CS-D5), hydrocarbon (HCS), or hydrocarbon-containing dry cleaning solvents.

PRENETT A-B-C
Pre-spotting agents for textile cleaning in solvents. For use with SOLVONK4, Perc, hydrocarbon solvent and Cyclosiloxane D5.

DEPRIT PROFESSIONAL
Range of spotting agents for professional users in textile cleaning. For pre-spotting in wet cleaning or post-spotting in wet cleaning and dry cleaning.

Proofing/finishing

AROMATEX
Perfume concentrate for textile cleaning. For use in SOLVONK4, Perc, hydrocarbon, and Cyclosiloxane D5.

VINOY PLUS
Water and oil repellent finishing agent for waterproofing and stain protective finishing of textiles in dry cleaning machines. Free from halogenated solvents. For use in Perc and hydrocarbon machines.

Solvent care

ALKANON
Acid binding adsorbent for solvents maintenance in dry cleaning machines. For use in Perc.

DISTIL
Distillation defoamer for organic solvents. For use in SOLVONK4, Perc, hydrocarbon, and Cyclosiloxane D5.

PERAMON
Acid-binder and stabilizer with deodorizers for solvent care. For use in SOLVONK4, Perc, hydrocarbon, and Cyclosiloxane D5.

TONSIL 8120-D FF
Highly active filter powder for regenerating solvent liquors in drycleaning. For use in Perc, hydrocarbon solvents, and Cyclosiloxane D5.

Leather ancillaries

OLEODERM
Highly concentrated leather oil with waterproofing effects for cleaning and reoiling of leathers and furs. For use in Perc and hydrocarbon.

Disinfection

Cinta Sept
Highly effective additive for disinfectant dry cleaning in the solvents SOLVONK4, perchloroethylene, KWL, intense® and SENSENE™.

Use biocides safely. Always read the label and product information before use.

Competent and efficient in textile chemistry and hygiene
