Safe handling of washing and cleaning detergents

kreussler TEXTILE CARE

6 steps to a safe workplace

1. Personal protective equipment (PPE)

When handling chemicals (e.g. container replacement) always use specified protective clothes and equipment (PPE):

Protective goggles

Gloves

Safety shoes

Work clothes/ personal protection

2. Respect the hazard symbols and safety instructions

3. Do not mix products

4. Do not eat or drink while working

5. Do not smoke

6. Wash hands and use skin protection

What to do in emergencies? Emergency call: 000

What to do if you come into contact with chemicals?

Eye Contact

- Rinse eyes for several minutes under running water
- If present and easy to do, remove contact lenses

Skin Contact

- Rinse off with plenty of water

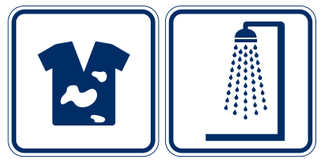
Inhalation

- Supply fresh air

Mouth/swallowing

- Consult a doctor immediately
- Rinse out mouth immediately with plenty of water
- Do NOT induce vomiting

Contact with clothing



- Change any contaminated clothing immediately
- Immediately rinse skin with plenty of water

In case of indisposition or persistent symptoms seek medical advice immediately!

Additional Advice

1. Read product information and safety data sheet (SDS)
2. Use chemicals carefully and avoid contact with skin and eyes
3. Check first aid cabinet: Regular inspection of the first aid cabinet regarding inventories, completeness, functionality and shelf life
4. Keep the workplace clean
